

# Fill us with Your feast

Phil Campbell-Enns

---

C                    G/B  
Weary and tempted  
Am                    F  
We enter the desert  
C                    G/B                    Gsus G  
Desperately seeking Your face  
Em                    Dm                    Am                    F  
Lives that are thirsty and hearts that are lonely  
C                    G/B                    C  
We will seek Your embrace

F                    C/E                    G                    C  
Find us empty and wandering  
F                    C/E                    Gsus G  
We, the lost and the least  
F                    C/E                    G                    Am  
Find us in the wilderness  
F                    G                    C  
Then fill us with Your feast

Deep in our darkness  
You enter in stillness  
Offering comfort so bright  
Gathered together within your safe shelter  
Dark will soon become light

Seeking and trusting  
We turn from destruction  
Wondering what You will bring  
God of the present, the past and the future  
Come and do a new thing
